

SANDIP FOUNDATION'S  
SANDIP POLYTECHNIC, NASHIK  
DEPARTMENT OF INFORMATION TECHNOLOGY

---

Date: 16<sup>th</sup> Jan 2017

**Name of Event:** Advance Android Development

**Date of Event:** 16<sup>th</sup> Jan 2017

**Resource Person:** Mrs. Harshada S Gite, Senior Android Developer

**Objectives:**

Its main objective is to teach the important concepts which are useful in Android Development.

**Outcomes:**

- Justified key factors in Android Development.
- Android application development is fast becoming a separate field of information technology. More and more independent app developers and app development companies are taking interest in this OS and are coming up with some of the best apps around. Hence, one can understand the importance of android application development.

**Participants:**

SYIF and TYIF students
