

Date: 30/09/2019

**Name of Event:** Industrial Visit to Thermal Power Plant, Ekalahre.

**Date of Event:** 27/09/2019 and 28/09/2019

**Resource Organization:** Industrial Visit to Thermal Power Plant Ekalahre, District Nashik.

**Objectives:**

1. To observe and understand the operation of Thermal Power plant.
2. To observe and study various thermal devices such as Boilers, its mountings and accessories, cooling towers etc.

**Outcomes:**

In this industrial visit students observed the process of generating electricity in thermal power plant. For the generation of electricity right from the availability of coal to the step up and distribution of electricity this complete process has been observed by student. Students also studied the working of thermal devices such as boilers, its mountings and accessories, cooling towers, heat exchangers etc.
