

SANDIP FOUNDATION'S
SANDIP POLYTECHNIC, NASHIK
DEPARTMENT OF COMPUTER ENGINEERING

Name of Event: Value Added Course on “**Advanced Computer Networks & Open Source Operating Systems**”

Date of Event: 21st to 23rd September 2018

Resource Person: Mr. Prasad Gosavi (V3 Data Solutions, Nashik)

Objectives:

1. To provide knowledge of various Protocols & their implementation in networking.
2. To understand the use of various networking simulators.
3. To execute various operating system commands.
4. To understand various features of Open Source Operating Systems.

Outcomes:

Students will be able to use various network simulators.

Students can design application specific networks in network simulators.

Students can execute various network commands.

Participants:

Third year Computer Engineering students.
